Also, we need to be able to look at the totals during the month - we can discuss this at a later date.

My apologies Rob,

please see steps for processing of client marketing & productions

1. Meeting Agenda - from client meeting, marketing only (Facebook & Google PPC) - Hannah enters these details into Monday & Invoicing workbook
2. Meeting Summary - emailed to client, which includes Production charges and any additional services not included in step1. - Hannah enters these details into Monday & Invoicing workbook
3. Monday.com has manual entries into the appropriate boards - Hannah enters these details into Monday Digital Team enters PPC budgets into Facebook or Google platform from Monday.
4. MS OneDrive - Invoicing workbook: existing entries for ongoing monthly charges (highlighted in orange). New Services, Production and any other charges are primarily entered by Hannah, reviewed by Kellie and any additional entries required (ie: Digital billboards, cinema, VMS boards etc) are directly entered and don't go through Monday at the moment. This is also reviewed by Clara & Marketing Partners during and at EOM.
Hannah & Kellie perform final EOM checks for PPC budgets vs spends, SMS, EDM/eNewsletters and Social Media services amendments including YouTube.

Thank you & Kind Regards,

Hi Rob,

per our discussion, please see attached the following files:

- * October invoicing workbook in excel format (copy of the live document in MS OneDrive) - orange highlights in descriptions are ongoing monthly charges. This also has the tracking categories that are required in the 'Dropdown Menu' tab. NOTE: some tabs may have 2-3 invoices on them.
- * Dropdown menu for Media Tracking column A, in an excel format - these are the 'tracking/Option1' categories for 'Media/Option1' in the Xero importing template.
- * SalesInvoiceTemplate for importing into Xero in csv format
- * Invoicing Descriptions in excel format (this is also in the October invoicing workbook)
- * Xero Client List with codes in csv format, these are the names the clients are invoiced to.

Please see the list of chart of accounts and their codes.

205 Printing
210 Production
215 Marketing
216 Digital Advertising
217 Social Media
219 Video Production
220 Media
225 Website
330 Other

Other requirements:

* Invoice numbering for importing into Xero - this will need to be updated by me at the end of the month before exporting from Monday (each charging line of the invoice requires this number). If I can add the first client number ie: Alan Mance Motor Group and the invoice numbers could automatically follow on to each client.

* Provision for GST: ie Facebook PPC is GST free all other charges are GST.

Names: GST on Income, [GST Free Expenses](#), [GST on Expenses](#) - these apply to COA 330 Other for Facebook Ads & Google Ads PPC.

Let me know if there is any clarification or further information you may need.

Thank you & Kind Regards,

Kellie White
